INTRODUCTION

VMC Civils Eng. Lab (Pty) Ltd was established in 2016, with the view of contributing knowledge, sharing and expanding experience in the construction industry. We have been performing site investigations and testing for the entire spectrum of civil engineering projects throughout KwaZulu Natal province and even further afield.

We pride ourselves with our efforts and achievements, which have resulted in us making a sound contribution in-line with our founding objective of providing quality multi-faceted geotechnical services.

ABOUT US

We have been performing site investigations and testing for the entire spectrum of civil engineering projects throughout KwaZulu Natal province and even further afield with 7 years of experience.

Priding ourselves with our efforts and achievements which have resulted in us making a sound contribution in-line with our founding objective of providing quality multi-faceted geotechnical services.

OUR PEOPLE

- Equity Profile and Black Economic Empowerment.
- **VMC Civils Eng. Lab (Pty) Ltd** has a meaningful and active black economic empowerment strategy.
- We are a 100% black owned and managed organization.

OUR CORE VALUES

MISSION

- To provide innovative, optimal and cost-efficient services country-wide.

VISION

- To provide quality services to our clients.
- To create employment opportunity and maintain a high level of skill amongst the workforce.

AIM

- To produce valid and reliable results.
- To provide the highest quality service at the most affordable price.

STRATEGIES

- Implement quality management system that conforms to the requirements of recognized standards.

- To liaise with the government parastatals and department as well as the entire business community.
- To create good and productive economic climate by working closely with SMME's and experienced reputable partners.

OUR SERVICES

SOIL AND GRAVELS

- Nuclear density test
- Moisture content
- California Bearing Ratio
- In-situ testing – DCP, DPL
- Atterberg Limits
- UCS determination
- ITS determination
- Sieve Analysis

CONCRETE TESTING

- Concrete mix design
- Slump test
- Compressive strength of concrete cubes
- Coring of concrete

GEOTECHNICAL & PAVEMENT INVESTIGATIONS

- Centreline investigation
- Geotechnical investigation
- Test pit profiling
- Material sampling

ASPHALT

- Coring of Asphalt
- Sampling

MAJOR CLIENTS

- Department of Transport
- SANRAL
- COGTA

RECENT PROJECTS

Project: BUFFALO RIVER BRIDGE CONSTRUCTION
Service: Concrete & Aggregate Site Laboratory
Client: N. Nhleko (Ensync Escongweni RHDHV JV)
031 265 6007
Project Status: in progress

Project: N3 - N.003-014-2023-9C-SL JV (SANRAL)
Service: Concrete & Aggregate Site Laboratory
Client: Josiah Pandayach (Naidu Consulting)
031 265 6007
Project Status: Complete

Project: Road P50/1 - ZNQ4198/17T/H/0026/19T JV (XMOOR/DOT)
Service: Soils, Concrete & Asphalt Site Laboratory
Client: Austin Pitamber (Xmoor)
031 791 0512
Project Status: in progress

Project: R573 - R.573-030-2019/1-SL JV (SANRAL)
Service: Soils, Concrete & Asphalt Site Laboratory
Client: Bradley Hariram (Project Manager)
031 266 0458
Project Status: Complete

Project: N3 - N.003-030-2017-7C-SL JV (SANRAL)
Service: Soils, Concrete & Asphalt Site Laboratory
Client: Josiah Pandayach (Naidu Consulting)
031 265 6007
Project Status: in progress
